Le Jade Aesthetic Clinic

Testimonial

Mar 4th, 2024

Rhinoplasty is a complex and precise procedure. As a specialist in facial plastic surgery, every detail requires meticulous attention and careful crafting.

The materials used in the process must be rigorously selected. PureForm, with its excellent support, superior tissue compatibility, low rejection rate, and natural feel, is my first choice when performing facial plastic surgery.

I am thrilled and reassured to have such a safe material, enabling me to deliver the most perfect results to my clients.
